space for bodily exercise, a total absence of any kind of any useful occupation, and almost total isolation from

Notably among them will be the fig-ures of the notorious "Cartain" Melof the hotorious "Cantain" Mel-who for Several years haunted unity between Ballatat and Mel-p. to the terror of all gold-laden state to the terror of all gold-laden seems attempting to make their way om the gold fields to the latter city, a was credited with many murders of countless robberies, and when ally arrested he admitted that the occeds of his crimes must have used upon quite a quarter of a million dollars, which he claimed he had diden in a place known to himself property alleged to belong to the latter hank, has filed an affidavit showing much confusion in the management of the two institutions. The state hank has been built up on the ruins of the national bank, which went into liquidation about a year ago, and each has its president, H. W. Wheeler, and cashier, E. R. Wheeler, David charges a deep-laid conspiracy to loot the national bank, and for that purpose, he says, the state hank was organized, while the national bank still mintained a corporate existence. He cites many instances of transactions, which, he says, were in further, ance of the conspiracy, the practice of the Wheelers being from time to time to realize on the assets of the national bank, deposit the money in the state bank, and then borrow it on their individual account from the state bank, glying in return their own paper unsecured. At present Receiver David says the brothers are individually liable to the national bank as follows:

H. W. Wheeler, \$3,957; Lee Wheeler, \$2,961; Le H. Wheeler, \$1,516; E. R. Wheeler, \$460.

During all the time the Wheelers have drawn double and triple salartes tion dallars, which he claimed he had hidden in a place known to himself hidden in a place known to himself hidden he a result, for forty years wince people have been trying in vain to find out where Melville hid his liberation gold. As he as in the habit of riding to the top of Mounts Boran and Anakle, from which points of vantage and by the aid of a powerful field glass, be was able to espy the returning diagers, it is believed that the treasure must be hidden in the neighborhood of these places, but all attempts to find it have proved fruitless.

Mellville's Burning Orntory.

Mellville's Burning Oratory.

When, after trial and conviction, Melville, was confined as heard the Success, he watched his opportunity and at the head of a minuher of other desperate men, suddenly rushed upon the boat, Rilled the keeper in charge, and succeeded lit putting away from the huik in safety, aithough fired upon by all the bulks and war shins to the bay. He was soon recentured, however, and at his trial defended himself brilliansty, delivering a speech of great power and impresiveness, during which he dilated in burning words upon the horrors of the penal system son board the Success, and causing such a sensation by its publication in the newspapers of Melbourne that a mometer mass meeting of titzens was called and resolutions were passed in favor of abolishing the convict huiks, Indeed, the popular feeling stoused against them was so strong and

general that the government was domnelled to commute the death sentence imposed upon Melville to imprisonment for life. He was transferred to the jail at Melbourne, where, according to the official report be committed suicide. The unofficial version of the affair was that he was strangled to death by a keeper during a struggle which the desperate man made for liberty.

Every side of convict life in the old lations who have purchased her, expect upon the Success, especially the different modes of punishment, and the speculators who have purchased ber, expect to reap a small fortune as the result of their stroke of enterprise.
